Crystals

IT'S ALL ABOUT THE BLING!

What Does AB Mean:
Clear AB crystals are our most beloved crystal colour for bling. The AB coating is an iridescent, rainbow-like coating that reflects light, giving extra sparkle to your uniform.

Everyone loves some sparkle to really make a design pop.
We can source a range of colours, shapes and sizes - see the most popular below.
By using strategic placement of crystals, we work towards your budget.
Remember to be descriptive in your order when you have special requests.

SHAPES & SIZES

The most popular crystal is the Round AB, ranging in size from 2-5mm.

To make your design truly unique, we can source different size and shapes crystals. If you have something in mind, just ask!
